Shmeppy – Lead Software Engineer & Founder

2018 – Present

- Built a map editor from end-to-end using Node.js, React, TypeScript, and the Canvas API with multi-user collaboration supported via [operational transformation](#) and WebSockets.
- Developed analytics pipelines in Python and Rust which processed 500M logs daily and accurately predicted the results of the launch of premium accounts.
- Optimized the onboarding funnel to attract 27K users who built 80K maps.
- Built an entire subscription system on [Stripe Elements](#) to support 800 active subscribers.

Primer Learning – Principal Software Engineer (Part-Time Contract)

2022 – 2023

Built Unity simulations and editor extensions for their YouTube channel with 1.7M subscribers.

Khan Academy – Senior Software Engineer

2016 – 2018

- Led a team of five to display different content libraries to users in various locales. Onboarded other Senior Engineers and conducted end-user interviews and high-level design.
- Architected new in-house editing system for an internationally distributed team of content creators that tightly integrated [Crowdin](#) with our React, Python, Flask, and Google App Engine powered editing platform.
- Proposed, designed, and co-built a [Selenium](#) end-to-end testing system.

Khan Academy – Software Engineer

2014 – 2016

- Built the React frontend for the launch of Official SAT® Practice, led a team of four to lay a foundation for new test prep products, and was promoted shortly after.
- Championed adoption of [Flux](#) (later [Redux](#)) across the company.
- Created [Khan Academy's original engineering blog](#) and encouraged contributions to it.

Various Companies – Software Engineer (Part-Time Contracts)

2007 – 2013

Completed 20+ contracts including [ColorTrack Realtime's](#) desktop interface with C# and WPF, a CMS for a senior community home broker, and a ribbon toolbar with RTL language support.

Additional Experience

- Interned at [Mozilla](#), [JetHead Development](#), and [Khan Academy](#).
- Taught C++ and Python as a Supplemental Instructor at the [University of California, Riverside](#).
- Co-founded [Galah Group LLC](#) and built a product with MongoDB, Flask, and OpenVZ containers.
